How to be part?

Community

It's you!
and you are
welcome!

How to contribute to the project ?

Code

1. Bug reports (Issues, github tab)
2. Upstream your code
3. Bug fixes
4. Implement new features
5. Be a core developer

Community

6. Tell to community !
7. Open discussions (Discussions, github tab)
8. Contribute to discussions
9. Participate to NM Days
10. Help NM Days organisation
11. Propose documentation (e.g. video)
12. Be an ambassador

Coordination (mattermost)

13. Join the technical committee meetings
14. Join the technical committee

Help to fund the projects

How to conserve
a normal distribution
with large standard deviation !

Program 2027 !

Training camp

- March 2027
- Nantes (UMRAE office)
- Beginners
- not free

Coding camp

- March 2027
- Nantes region
- Advanced user and/or developer
- No registration fee

NoiseModelling Days 2027

- June 19 and 20, 2027
- [Ghent](#) (Belgium)
- All people interested
- No registration fee
- Hybrid (like Malaga)

Summer School

EAA Summer School

The EAA Summer School will take place on Saturday 19 and Sunday 20 June 2027 at Ghent University. The Summer School precedes Acoustics '27, which starts on Monday 21 June 2027.

Ghent is conveniently located 60 km from Brussels, directly accessible by train (35', 4 trains/H) from Brussels Central Station and the Acoustics '27 Forum Acusticum Venue. The city of Ghent offers plenty of affordable accommodation. The Summer School is chaired by Timothy Van Renterghem from the Institute for Biomedical Engineering (IBME)/Noise and Health, Department of Information Technology, Faculty of Engineering and Architecture at Ghent University.

Program

Thanks for your attention

Any questions ?
